Policy no.

LP0000041664-7

- Installation of one 150 kV shunt reactor including one 150 kV switchgear
- Installation of one 150 kV switchgear for the 150 kV cable between [REDACTED] and [REDACTED]
- Installation of AIS terminations for the cable system, [REDACTED] - [REDACTED]

In substation [REDACTED] the following is part of the works:

- Installation of one 150 kV shunt reactor including one 150 kV switchgear.
- Installation of 150 kV switchgear for the 150 kV cable between [REDACTED] and [REDACTED]
- Installation of 150 kV switchgear for the 150 kV cable between [REDACTED] and [REDACTED]
- Installation of one serie reactance.
- Installation of AIS terminations for the cable system, [REDACTED] - [REDACTED]
- Installation of AIS terminations for the cable system, [REDACTED] - [REDACTED]
- Removable of one existing 150 kV switchgear

In substation [REDACTED] the following is part of the works:

- Component Change of the existing 150 kV switchgear at the for the line cable between

Graderup and [REDACTED]

- Installation of AIS terminations for the cable system, [REDACTED] - [REDACTED]

In substation [REDACTED] the following is part of the works:

- Installation of one 150 kV shunt reactor including one 150 kV switchgear.
- Installation of 150 kV switchgear for the 150 kV cable between [REDACTED] and [REDACTED]
- Installation of AIS terminations for the cable system, [REDACTED] - [REDACTED]
- Re-loaction of existing fasedrejningstransformer from substation [REDACTED] to [REDACTED]
- Demounting of transformer at substation [REDACTED]
- Transport including on loading and off loading
- Installation on foundation in [REDACTED]

In substation [REDACTED] the following is part of the works:

- Installation of one 150 kV shunt reactor including one 150 kV switchgear
- Installation of one 150 kV switchgear for the 150 kV cable between [REDACTED] and [REDACTED]
- Installation of AIS terminations for the cable system, [REDACTED] - [REDACTED]

Cabling

- Installation of 1 x 150 kV underground cable system from substation [REDACTED] to substation [REDACTED]
This installation includes the installation of 6 km subsea cable and approximately 23,5 km land cable.
- Installation of 1 x 150 kV underground cable system from substation [REDACTED] to substation [REDACTED]
This installation is approximately 26 km.
- Installation of 1 x 150 kV underground cable system from substation [REDACTED] to substation [REDACTED]
This installation includes the installation of approximately 12 km subsea cable and approximate 40 km land cable.
- Removable of 12 km existing subsea cable between [REDACTED] and [REDACTED]

Doc. 14/08765-32 16/32

- Removable of 2 km existing subsea cable (spare cable) in [REDACTED] next to [REDACTED]

Overhead lines

- Removable of approximately 26 km existing over head lines between substation [REDACTED] and substation [REDACTED]
- Removable of approximately 40 km existing overhead lines between substation [REDACTED] and substation [REDACTED]

Section 4 - Marine Cargo

TOTAL PREMIUM

Section 1 -	DKK 1.509.570,-
Section 2 -	DKK 278.661,-
Section 4 -	<u>DKK 111.885,-</u>
Total	DKK 1.900.116,-

Deposit/minimum premium is 85% of the above mentioned premium. Final project sum must be reported to IF not later than 4 weeks after the project has been finalized and final premium will be calculated.

SPECIAL CONDITIONS

Archaeological Protocol

In the tender material the archaeological protocol is not described. A survey for metal parts must be performed on all cable routes to identify necessary changes for archaeological reasons and following severe delays.

The survey will furthermore limit the exposure from possible unexploded ordnances left from second world war close to where the work will be performed. If such a survey is carried out the policy will cover any unexpected damage from ordnance remaining on the seabed.

Method statement

It is essential that all method statements and risk assessments from contractors are of good on and off-shore construction standard as for the placement of sub sea cables and are approved by the warranty surveying body.

Contractors are only allowed to be in the construction area when their individual working criteria's as approved in method statements are followed.

Weather forecast system

The owner and contractors must make sure that there is a good weather forecast system available when commencing

Policyholder

Print date

25 March 2019

Policy no.

LP0000041664-7

work working on site. Furthermore a good wave measuring buoy must provide information regarding significant wave height and wave period, currents ect. to all contractors working on the site.

Additional work for repositioning

When placing the sub sea cables and other structures on the seabed or sub sea the contractor must use an approved positioning system with full backup together with trained surveyors to operate the equipment. Approved positioning system is differential GPS supplied with an extra land station to get very high accuracy of positions (normally +/- 5 cm in X and Y plan and +/- 20 cm in z direction).

Owners representative must be on site to approve position before placement of sub sea cables and other structure of the sea bed or sub sea.

Removal of wrecks, wreckage and/or offshore debris

A strict "Don't throw debris over board" policy must be in force for all contractors working in the field at all times.

Pollution hazard

All contractors must be forced to live up to the international MARPOL rules for vessels (oil pollution and garbage pollution).

Regular check of contractors for use of Oil Record Book and Garbage Log must be performed by the wind park owner.

Additional conditions Marine CargoPre-shipment survey:

Yes, subject to certain "high-risk shipments" (to be agreed).

Surveyor costs additional to the 2,5 percent under the CAR section 1, are to be paid by the policyholder.

Wet towage:

Is excluded from coverage.

Territorial limitations:

Shipments from Europe to Denmark incl. domestics transports.

Barge Warranties:

Yes, subject to the following warranties:

- A reliable, latest issued weather forecast for the voyage is required covering the whole voyage or the voyage to next eventual port of call.
- Maximum wind force 12 m/s.
- Maximum height of waves 2,5 meters
- The cargo to be lashed and secured to sustain all the stresses expected during the whole voyage taking into account the time of the year and the weather conditions.

Policyholder

Print date

25 March 2019

Policy no.

LP0000041664-7

- The barge to be suitable and of a sufficient size and stability for a safe carriage of the goods during the intended voyage.

- Tug, barge and shipment are always subject to underwriter's approval.

GENERAL ADDITIONAL CONDITIONS

It shall be a condition precedent to any liability being accepted hereunder that

In respect of loss of or damage to existing underground cables and/or pipes or other underground facilities if, prior to the commencement of Works, the Insured has inquired with the relevant authorities about the exact position of such cables, pipes or other underground facilities, the indemnity hereon shall be restricted to the repair costs of such cables, pipes or other underground facilities, any consequential damage being excluded from the cover.

- Plans for mobilisation of necessary and relevant technicians, helicopters and/or vessels are kept in force at all times.

- All necessary equipment to facilitate repair of any structure and cables both on and off-shore are available at all times.

- The Project shall be carried out according to the time schedule for the Project as forwarded to the Insurer. The Insurer shall be advised of any change or deviation, which will alter the weather exposure to the Project operation, and thereby the risks assumed under this policy

- The Insured shall comply with the Technical Specifications and Safety Regulations according to the contracts with

respect to storm, wave height and/or other adverse weather conditions where the Project shall be interrupted according to the specifications/regulations of the shipmasters own decision. All costs, direct and indirect for interruption of the-

- Works and the restart thereof when weather conditions so permit according to the specifications shall be borne by the

Insured and no cover for such costs are granted under this policy

Notes on exclusions and deductibles

- Professional indemnity insurance is not provided

- TPL policy is secondary to contractors and sub-contractors mandatory individual liability insurances

- Contractors equipment is not covered under this policy

- Contractors documents are not covered under this policy

- Any liabilities associated to the ownership of and/or operation of vessels of any kind in the performance of this project

by a contractor/or sub-contractor must be covered by said parties' individual policies.

- Fire will not be covered under this policy after TOC

Insurance broker clause

Policyholder

Print date

25 March 2019

Policy no.

LP0000041664-7

Insurance is written on the basis of information provided by the policyholder's insurance broker. Information provided by the policyholder's insurance broker is equal to information provided by the policyholder himself or herself and is thus binding on him or her, cf. the statutory rules.

Correspondingly, information provided by the insurer to the insurance broker is equal to information provided to the principal and to or from co-insured persons.

Insurance premiums are calculated on the basis of the risk and cost assessment used by the insurer in each case.

An essential condition for fixing premiums is that the principal has authorised and is using an insurance broker in accordance with the insurer's cooperation standard for customers who have authorised a registered insurance broker.

If the condition that the principal has authorised the broker company is no longer met, now or at a later time, the insurer is entitled to change the premium as a consequence of this without notice and with effect from the date from which the condition was no longer met.

Policy no.

LP0000041664-7

CLAUSES

POLLUTION HAZARD CLAUSE

Subject to the terms and conditions of the Policy, this insurance covers physical loss of or physical damage to the property insured hereunder directly caused by any governmental authority acting under the powers vested in them to prevent or mitigate a pollution hazard, or threat thereof, provided such act of governmental authority has not resulted from want of due diligence by the operator for the Principal Assureds to prevent or mitigate such hazard or threat.

Coverage provided by the above paragraph shall also extend to cover any other physical loss or physical damage caused or inflicted by order of any governmental body or agency after consultation with officials and engineers of the Assured relating to the insured project but only in respect of interests covered by Section I, and always subsequent to physical loss and physical damage resulting from a peril insured against.

SUE AND LABOUR CLAUSE

It is further agreed that in the case of any imminent physical loss or physical damage to the property insured hereunder, which is the direct result of a peril insured against, the Assureds, their servants and their agents may sue, labour and travel for, in and about the defence, safeguard and recovery of the subject matters insured without prejudice to this insurance and may incur reasonable expenses in efforts to avert or minimise a loss which may fall under Section I.

The expense so incurred shall be borne by the Assureds and Underwriters proportionately to the extent of their respective interests. No acts of Underwriters or the Assureds in recovering, saving or preserving the property insured shall be considered as a waiver or acceptance of abandonment.

Underwriters limit of liability under this clause shall be as per sublimit.

REMOVAL OF WRECK, WRECKAGE AND/OR DEBRIS

Following an Occurrence covered by Section I, Underwriters shall indemnify the Assureds for all costs of or incidental to the actual or attempted raising, removal or destruction of the wreckage and/or debris of the insured property, or the provision and maintenance of lights, markings, audible warnings for such wreckage and/or debris when the incurring of such costs is compulsory by any law, ordinance or regulation or when the Assured hereunder is liable for such costs under written contract or when such wreckage and/or debris interferes with the Assured's normal operations.

Underwriters limit of liability under this clause shall be as per sublimit.

TESTS, LEAK AND/OR DAMAGE SEARCH COSTS

If it becomes necessary to repeat any test(s) and/or trial(s) or to carry out subsequent test(s) and/or trial(s) as a result of a physical loss or physical damage to the insured property arising from an Occurrence covered under Section I, Underwriters will bear the cost of any such repeated and/or subsequent test(s) and/or trial(s) subject to a sub-limit of (be as per sublimit, -100%) any one Occurrence, and, be as per sublimit, - (100%) in the aggregate.

STAND-BY CHARGES

Policyholder

Print date

25 March 2019

Policy no.

LP0000041664-7

Subject to a sub-limit of any one as per sublimit, - (100%) in the aggregate, underwriters shall indemnify the Assureds for the cost of stand-by time on vessels and/or craft and/or equipment actively engaged in the course of repair following an Occurrence covered under Section I, where the Assureds are prevented from working in, around or about the damaged property by bad weather, including named hurricanes.

OFFSHORE CANCELLATION COSTS

Subject to a sub-limit of any one as per sublimit, - (100%) in the aggregate, this policy will cover the Principal Assureds in respect of the costs to cancel contracts on offshore vessels and construction equipment under contract to the project or additional costs offshore vessels and construction equipment to complete the project or operations in respect of which such costs are incurred, arising directly from loss or damage as covered herein from a peril insured to property insured hereunder, deductible application notwithstanding.

Coverage will also be provided where the Principal Assured is obliged to cancel contracts on

55. FORWARDING CHARGES

In respect of transit(s) insured hereunder, if as a result of an Occurrence covered by the terms of Section I, the insured transit is terminated at a port or place other than that to which the property insured is covered under this insurance, Underwriters will reimburse the Assured for any extra charges properly and reasonably incurred in unloading, storing and forwarding the property insured to the destination to which it is insured hereunder.

Underwriters will bear the cost of any such extra charges subject to a sub-limit of any one as per sublimit, - (100%) in the aggregate.

Support or stand-by vessels and construction equipment as a consequence of loss or damage as covered herein from a peril insured to nominated contractor's vessels engaged on the project, once such vessels have been mobilised specifically for work on the project. Where, as a result of an alternative course of action being adopted, such as the retention of the vessels or equipment on stand-by basis, there is a saving to underwriters of costs which otherwise would be recoverable hereunder, such costs will be allowable as a substituted expense.

LEG3/06

The Insurer(s) shall not be liable for

- All costs rendered necessary by defects of material workmanship design plan or specification and should damage occur to any portion of the Insured Property containing any of the said defects the cost of replacement or rectification which is hereby excluded is that cost incurred to improve the original material workmanship design plan or specification. For the purpose of the policy and not merely this exclusion it is understood and agreed that any portion of the Insured Property shall not be regarded as damaged solely by virtue of the existence of any defect of material workmanship design plan or specification".

Endorsement 002 - Cover for Cross Liability

It is agreed and understood that otherwise subject to the terms, exclusions, provisions and conditions contained in

Policyholder

Print date

25 March 2019

Policy no.

LP0000041664-7

the Policy or endorsed thereon and subject to the Insured having paid the agreed extra premium, the Third Party Liability cover of the Policy shall apply to the insured parties named in the Schedule as if a separate policy had been issued to each party, provided that the Insurers shall not indemnify the Insured under this Endorsement in respect of liability for

- loss of or damage to items insured or insurable under Section I of the Policy, even if not recoverable due to an excess or any limit,
- fatal or non-fatal injury or illness of employees or workmen who are or could have been insured under Workmen's Compensation and/or Employers' Liability insurance.

The Insurers' total liability in respect of the insured parties shall not however exceed in the aggregate for any one accident or series of accidents arising out of one event the limit of indemnity stated in the Schedule.

Policyholder

Endorsement 119 - Existing Property or Property Belonging to or Held in Care, Custody or Control by the Insured

It is agreed and understood that otherwise subject to the terms, exclusions, provisions and conditions contained in the Policy or endorsed thereon and subject to the Insured having paid the agreed extra premium, Section I of this insurance shall be extended to cover loss of or damage to the existing property or property belonging to or held in care, custody or control by the Insured caused by or arising out of the construction or erection of the items insured under Section I.

Insured property: property under JFK- Jytland-funen cable contract

Sum insured: as per sublimit,-

The Insurers will only indemnify the Insured for loss of or damage to the insured property provided that prior to the commencement of construction its condition is sound and the necessary safety measures have been taken.

In respect of loss or damage caused by vibration or by the removal or weakening of support Insurers will only indemnify the Insured for loss or damage as a result of a total or partial collapse of the insured property, and not for superficial damage which neither impairs the stability of the insured property nor endangers its users.

The Insurers will not indemnify the Insured for

- loss or damage which is foreseeable having regard to the nature of the construction work or the manner of its execution,
- the costs of loss prevention or minimization measures which become necessary during the period of insurance.

Endorsement 003 - Maintenance Visits Cover

It is agreed and understood that otherwise subject to the terms, exclusions, provisions and conditions contained in the Policy or endorsed thereon and subject to the Insured having paid the agreed extra premium, this insurance shall be extended for the maintenance period specified hereunder to cover solely loss of or damage to the contract works caused by the insured contractor(s) in the course of the operations carried out for the purpose of complying with the obligations under the maintenance provisions of the contract.

Endorsement 004 - Extended Maintenance Cover

It is agreed and understood that otherwise subject to the terms, exclusions, provisions and conditions contained in the Policy or endorsed thereon and subject to the Insured having paid the agreed extra premium, this insurance shall be
